

INSTALLING DRAGON NATURALLY SPEAKING SDK CLIENT 10.1

IMC0401BUM.2 2012/10/12 Rev. 2.0

Pre-Installation Checklist:

- 1. Refer to the eRAD PACS Workstation Requirements Documentation for the workstation specifications and space requirements to install and run this Speech Recognition Plugin.
- 2. Remove any previous versions of Nuance Speech Recognition Software. It is recommended to run the Dragon Naturally Speaking Removal Tool if any previous versions of Dragon have been used on the workstation to completely clear any references to the application.
- 3. Exit all running applications on the workstation.
- 4. Dragon SDK Client edition requires a DVD drive to install the application.

Installation Instructions:

Place the installation disk in the DVD Drive and the installation should launch. If not, please open the DVD ROM drive in My Computer and open "**setup.exe**"

*Please Note it may take a few moments on this screen to check the system's resources:

Dragon NaturallySpeakin	g 10 - InstallShield Wizard Welcome to the InstallShield Wizard for Dragon NaturallySpeaking 10 Dragon NaturallySpeaking 10 Setup is preparing the InstallShield Wizard which will guide you through the program setup process. Please wait.
